

# Front End Technologies Week 7 Coding Assignment

**Points possible:** 75

**URL to GitHub Repository:** <https://github.com/KatteNoel/Week-7-Coding-Assignment>

**Video Link:** <https://youtu.be/LZfseyCv3Lo>

**Instructions:** In VS Code, or an IDE of your choice, write the code that accomplishes the objectives listed below. Ensure that the code compiles and runs as directed. Take screenshots of the code and of the running program (make sure to get screenshots of all required functionality) and paste them in this document where instructed below. Create a new repository on GitHub for this week's assignments and push this document, with your project code, to the repository. Add the URL for this week's repository to this document where instructed and submit this document to your instructor when complete.

## **Coding Steps:**

- Create a website using only HTML. The website can be anything you like (within school guidelines) as long as it meets the following criteria – website must contain:
  - At least 3 pages
  - Links to navigate between all pages present on each page
  - A list
  - 3 images
  - 2 different size headers
  - A table
  - A form

### About Katte

Katte Noel is a non-union voice actor based in Nashville, TN who is currently represented by **Wehmann Voice**, **Helen Wells Agency**, and **Jackson Agency**. Following a childhood packed with stage plays, girls' choir, and musicals, she graduated summa cum laude from the College of Charleston with a B.A. in Theatre Performance.

Since then, Katte used her lifelong skills to train to lend her voice to any medium, including commercials, narration, e-learning, video games, animation, and ADR. She strives to impress every client with her nuanced performance, quick delivery speed, and concise communication, so that whenever they are in need of voiceover, they inevitably return to Katte.

In her free time she likes to play video games, brew coffee, and dabble in game development.

If you find yourself wondering who you should cast for your next project, let Katte provide the answer.
